ANNUAL SCIENTIFIC MEETING 2014 & NATIONAL CONGRESS XII

GREETINGS FROM THE CHAIRMAN

Assalamualaikum warahmatullahi wabarakatuh,

Dear Colleagues,

As directed by Indonesian Society of Nephrology (ISN), Palembang will hold the PERNEFRI Conference, Annual Meeting and Workshop 2014.

It is an honor and pride, at the same time also a challenge for us.

Theme of this conference " **Optimization of Nephrology and Hypertension Referral System in JKN ERA**".

This event will held various scientific events such as expert lectures, symposium, nephrology forum , free oral papers/posters, workshops and competitions of scientific research.

The scientific events will be presented by experts in Nephrologic field both domestic and foreign.

We invite our colleagues and families to attend this valuable scientific events while also taking your time to enjoy our beloved city, Palembang.

LIFE PERNEFRI, and SEE YOU IN PALEMBANG.

Palembang,

Organizing Comitte PERNEFRI Conference, Annual Meeting & Workshop 2014

MESSAGE FROM THE CHAIRMAN OF INDONESIAN SOCIETY OF NEPHROLOGY

Assalamualaikum Warahmatullahi Wabarakatuh,

Dear colleagues,

Time flies as we approaching the last quarter of year 2014. By October 16-19 this year, we will held the InaSN Annual Scientific Meeting in Palembang with the theme "Best Referral System for Nephrology Patients in the National Health Insurance Era"

The right to obtain adequate health care is a basic human right. The government's policy on National Health Insurance (Jaminan Kesehatan Nasional/JKN) and the National Social Security Agency (Badan Penyelenggara Jaminan Sosial/BPJS) provides an opportunity for all Indonesian people to get a guaranteed availability of access to health care and to protect them against financial risks. Previous government's policy have held some form of social security in the health sector, including through PT Askes and PT Jamsostek which serves civil servants, pensioners, veterans, and private employees. For the poor, government guarantees through the Community Health Insurance (Jamkesmas) and the Regional Health Insurance (Jamkesda) scheme. However, these schemes are still fragmented and divided, where health costs and quality of care becomes difficult control.

As health care providers cooperated with BPJS, we will face new challenges in the implementation of this health system that have been implemented since January 1, 2014. Various problems have arisen in the implementation of this JKN, including the health referral system. The obstacles which suspected as the cause of the complexity of the current referral system is the range of health services in Indonesia, which has not been evenly distributed, especially in remote and poor areas; patient referral system is not effective and efficient; and unexpected increment of patients in the large hospital. This of course will interfere our health care performances.

Therefore, through the InaSN Annual Scientific Meeting we hope that we can together reach a consensus on the best referral system that is systematic, efficient and effective for patients with renal-hypertensive across Indonesia so that the quality of health care continues can be maintained and improved.

2014 InaSN Annual Scientific Meeting will also be accompanied by the XII InaSN National Congress.

Hopefully you will enjoy and meet the benefit from this meeting.

Wassalamualaikum warahmatullahi wabarakatuh.

FREE SCIENTIFIC PAPER

GENERAL REGULATION

1. Registered as a participant at the PERNEFRI ANNUAL SCIENTIFIC MEETING 2014 & NATIONAL CONGRESS XII
2. Papers submitted should be a clinical study, interesting case report, and young investigator award
3. Participants can choose the form of presentation, whether oral or poster
4. Of all free papers, both oral and poster, will be chosen 3 best papers from each category

ABSTRACT AND FULL PAPERS SUBMISSION INSTRUCTION

1. Abstract should be typed in Indonesian and English
2. The abstract of original contribution should be written in structured form using Arial font size 11, single space, not more than 250 words
3. Abstract should consist of Title (in uppercase), Name of all contributor(s) (Underline the presenter), Institution, Background, Objective, Method, Result, Summary and Key word(s)
4. Full paper should be written using Arial font size 11, 1,5 space
5. Full text should consist of Title (in uppercase), Name of all contributor(s) (underline the presenter), Institution, Background, Objective, Benefit, Method, Result, Discussion, Summary and References
6. All participants must have submitted an abstract to our email address: pernefri2014ilmiah@gmail.com by **August 30th 2014** (please attach correspondence address, phone and email of the presenter)

ORAL PRESENTATION INSTRUCTION

1. Time allocated for oral presentation is 10 minutes (8 minutes presentation, 2 minutes discussion)
2. Assessment includes the contents of papers, presentations and discussion

POSTER INSTRUCTION

1. Poster size is 80 x 110 cm
2. Time allocated for discussion 5 minutes
3. Assessment includes the contents and design of poster, presentation and discussion
